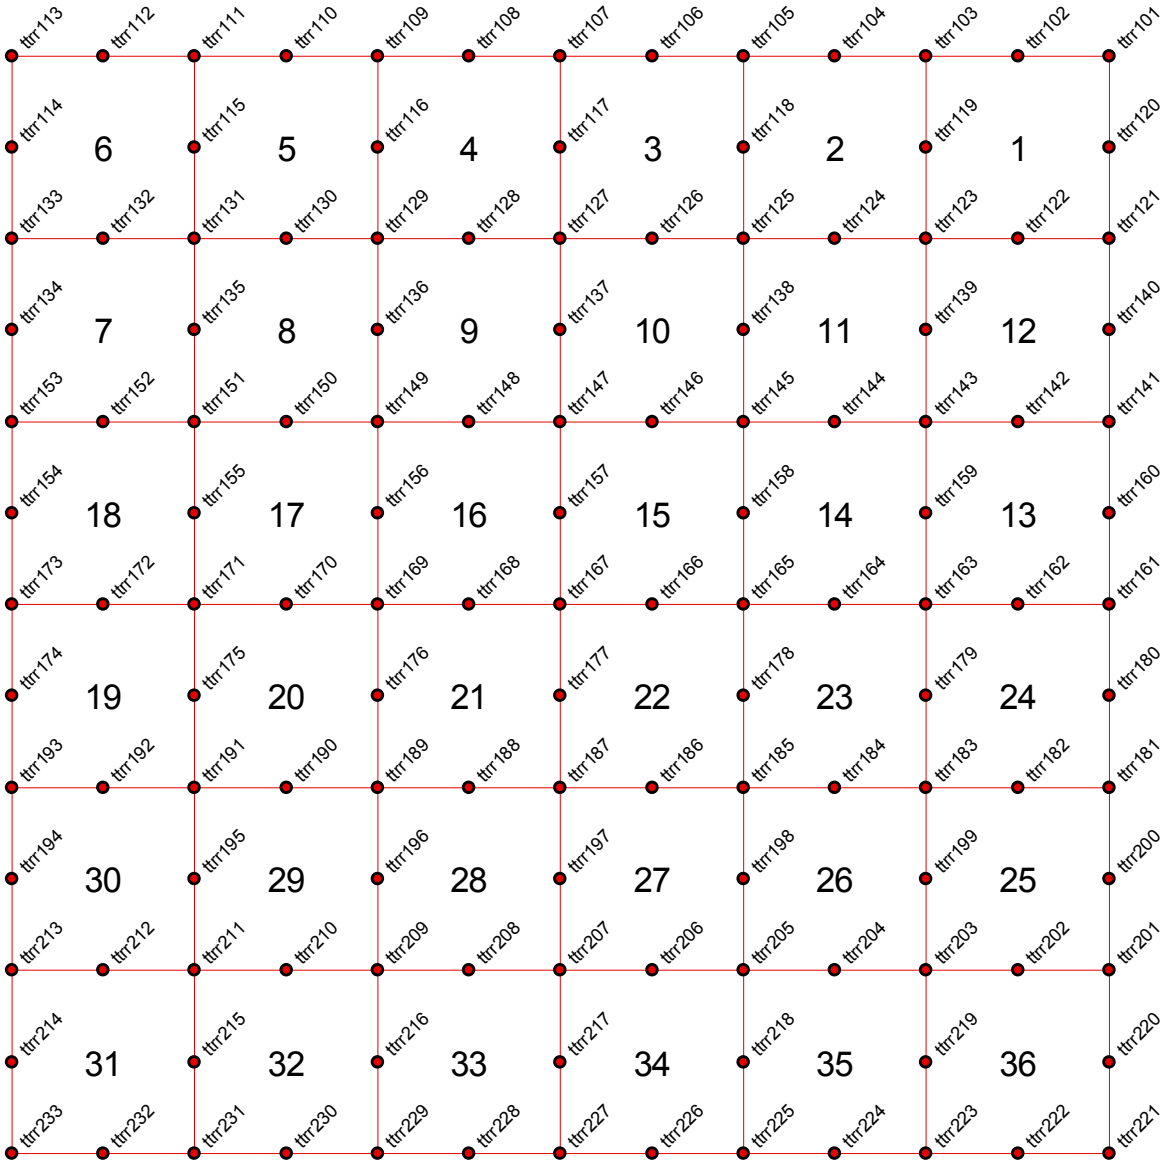
# Pinal County Control Network*

## Typical Point Layout



Each point number will consist of up to 7 numbers in the following format:

TTRR###

TT The first two represent the TOWNSHIP number south from the Gila and Salt River Meridian (leading zero suppressed, "north" township numbers suppressed)

RR The third and fourth represent the RANGE number east from the Gila and Salt River Meridian

### The last three numbers, up to a value of 233, represent the location of the point relative to the township diagram above. Values 234-500 are used for other pertinent miscellaneous points. Numbers 501-633 will represent search coordinates for locations, and numbers 634-999 represent search coordinates for miscellaneous points.

* Point locations are at or near section corners. Actual determination of section corners has not been made by Pinal County

# Pinal County Control Network

Control Points are at or near Section Corners, actual corner determination has not been made by Pinal County
