

Pinal County PM10 Emissions Inventory (EI) Development

1. Technical Advisory Committee Workgroup

Members include representative(s) from major PM₁₀ source categories

- I. Unpaved roads – Municipalities
- II. Paved roads – ADOT
- III. Agriculture
- IV. Construction
- V. Windblown dust

Goal/Task of PM10 EI TAC Workgroup

- Provide ongoing technical assistance, feedback and review of PM₁₀ EI development
-
2. Who's actually doing the EI development? (Item for discussion, the list below is draft and open for discussion)
 - a. Pinal County – Point & Area sources, Documents (IPP, EI report)
 - b. ADEQ – Coordination with PCAQCD, ADOT on area & onroad sources
 - c. ADOT – Onroad sources
 - d. Consultant – non-anthropogenic (i.e. wind)

 3. The other “stuff”
 - a. What is the PM10 nonattainment area going to look like?
 - i. Countywide
 - ii. Area C
 - b. Base year for PM10 EI (2007 looks representative)
 - c. Future years EI?
