

IMPORTANT NOTICE

from

Pinal County Employee Benefit Trust about Your Prescription Drug Coverage and Medicare

Pinal County Employee Benefit Trust (PCEBT) Beneficiary:

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with the Pinal County Employee Benefit Trust (hereafter PCEBT) and about your options under Medicare's prescription drug coverage. It also explains the options you have under Medicare prescription drug coverage and can help you decide whether or not you want to enroll. At the end of this notice is information about where you can get help to make decisions about your prescription drug coverage.

- 1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare through Medicare prescription drug plans and Medicare Advantage Plans that offer prescription drug coverage. All Medicare prescription drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.**
- 2. PCEBT has determined that the prescription drug coverage offered by the PCEBT is, on average for all plan participants, expected to pay out as much as the standard Medicare prescription drug coverage will pay and is considered Creditable Coverage.**

Because your existing coverage is on average at least as good as standard Medicare prescription drug coverage, you can keep this coverage (as long as you remain eligible) and not pay extra if you later decide to enroll in Medicare prescription drug coverage.

Individuals can enroll in a Medicare prescription drug plan when they first become eligible for Medicare and each year from November 15th through December 31st. This may mean that you may have to wait to join a Medicare drug plan and that you may pay a higher premium (a penalty) if you join later. You may pay that higher premium (a penalty) as long as you have Medicare prescription drug coverage through no fault of your own, you will be eligible for a sixty (60) day Special Enrollment Period (SEP) because you lost creditable coverage to join a Part D plan. In addition, beneficiaries who lose or decide to leave employer/union coverage, will be eligible to join a Part D plan at that time using a Special Enrollment Period to sign up for a Medicare prescription drug plan.

You should compare your current coverage, including which drugs are covered and at what cost, with the coverage and cost of the plans offering Medicare prescription drug coverage in your area.

If you do decide to enroll in a Medicare prescription drug plan, your current PCEBT coverage will not be affected. However, the PCEBT plan will NOT coordinate prescription benefits so you will need to determine which Plan (i.e., PCEBT or Medicare) you will use each time you go to the pharmacy and fill a prescription.

If you do decide to enroll in a Medicare prescription drug plan and drop your PCEBT prescription drug coverage, be aware that you and your dependents may not be able to get this coverage back. It should also be noted that the PCEBT prescription benefit is linked to the medical plan so one cannot be dropped without dropping the other.

You should also know that if you drop or lose your coverage with PCEBT and don't enroll in Medicare prescription drug plan within 63 continuous days after your current coverage ends, you may pay more (a penalty) to enroll in Medicare prescription drug coverage later.

If you go 63 days or longer without prescription drug coverage that's at least as good as Medicare's prescription drug coverage, your monthly premium will go up at least 1% per month for every month that you did not have that coverage. For example, if you go nineteen months without coverage, your premium will always be at least 19% higher than what many other people pay. You'll have to pay this higher premium as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following November to enroll.
