The Pinal County Comprehensive Plan is well underway! Here is an update on what's new!

**Provide Feedback on the Draft Vision**

Through the input received from the ten Road Shows held in July and the seven Visioning Workshops held in August, a draft Vision for Pinal County has been developed. We now want your feedback so that we can finalize the Vision.

The Vision is a foundation for the Pinal County Comprehensive Plan process, and will serve as the criteria in which all land use alternatives and policies will be evaluated against. It is important that the Vision reflects the future destination for Pinal County.

Visit the project website ([www.PinalCountyPlan.com](http://www.PinalCountyPlan.com)) or [click here](#) to complete our draft Vision Feedback Form.

All input received will be used to refine the Vision for Pinal County.

**Design Charrette Report Now Available**

In early October, six Design Charrette events were held around the County.

Participants at the Apache Junction Charrette.

Twenty land use and transportation plans were developed from these six events, including a plan developed by a graduate class from ASU's Global Institute of Sustainability.

These twenty plans will be used to develop the land use alternatives for Pinal County.

## What's Next: More Events in 2008

As the end of 2007 nears, the project team will be working hard on draft land use alternatives and policy development. Public involvement opportunities and project events will return in early 2008! Look to the project website ([www.PinalCountyPlan.com](http://www.PinalCountyPlan.com)) for the latest project information and event announcements. Until then, please have a wonderful and safe holiday season!
