

Instructions to view the CAP Trail Fly over using Google Earth:

To view the files you'll need download Google Earth (if you don't have it already). Once you have downloaded the attachments, open up Google Earth and follow these steps:

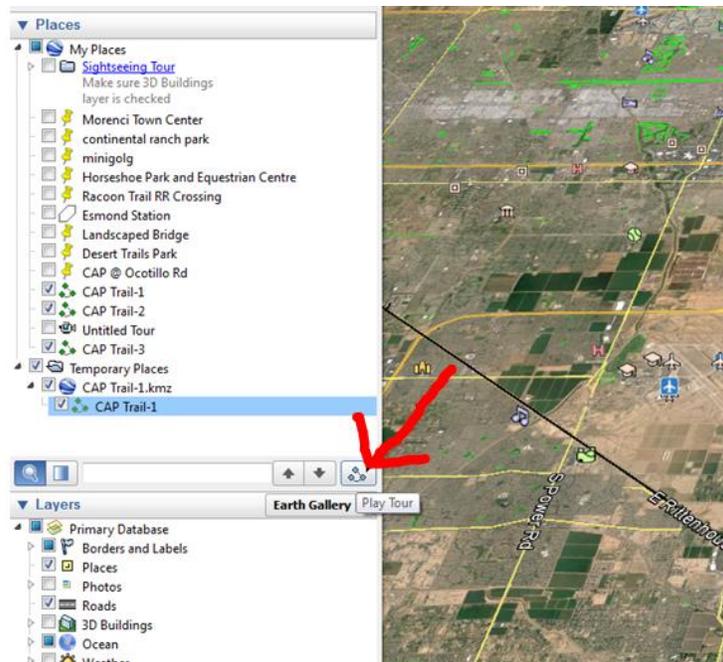

1. Select File, then Open
2. Choose one of the attached files: CAP Trail-1.kmz, CAP Trail-2.kmz, and CAP Trail-3.kmz. This will zoom you right in to the trail segment.
3. Select the Tools from the top menu and go to Options and select the Touring tab. Adjust your settings to match the settings below:

4. Next, In the Places legend you should see the CAP Trail-1.kmz file under the Temporary Places folder. Double click on the kmz file and it will open up the path (red arrow).

5. Select the path file, then select Play Tour (red arrow). This will start the fly over tour.

6. Pause and start the tour as need using the Tour Player in the bottom left corner.
