

PINAL • COUNTY
wide open opportunity

May 6, 2015

The purpose of this document is to publish Frequently Asked Questions (FAQ's) in regards to the Request for Statement of Qualifications for the Pinal Airpark – Engineering & Design Construction Project Management.

Clarification

Page 3 Section - Expected and Potential Projects include this language “Construction Administration/Management for the above projects”.

Q. How does this solicitation differ/compare to the General Airport Services contract that was just negotiated with Aviation firms?

The General Airport Services (On-Call) contracted firms will be working on County funded projects. The Pinal Airpark RSOQ is specific for this airport and will work with the County on State and Federally funded projects.
