Copies of the specifications and plans may be obtained as set forth in the Invitation for Bids.

6.2 The successful bidder is responsible and liable for the payment of all applicable taxes, fees and permit costs.

Bid Security is submitted as a guarantee that the bidder, if awarded the Contract, shall enter into a Contract to perform the Work in accordance with the plans and specifications and shall promptly provide contract security in the manner and form required in the Bid

Documents. Failure to strictly comply with these provisions shall result in the bid security being retained by Pinal as liquidated damages. No bid shall be considered unless it is accompanied by the required Bid Security.

8.2 The Bid Security of the successful bidder shall be retained until such bidder has furnished the bonds required by A.R.S. § 34-222, as amended, insurance certificates, insurance policy endorsements of additional insured and any other documents required in the Bid/Contract Documents. If, within ten (10) calendar days from the issuance of the Notice of Award of the contract the successful Bidder fails to deliver all the required documents and fails to execute the instrument entitled "Contract," the Bid Security of that Bidder shall be retained by Pinal as liquidated damages.

8.3 The Bid Security of unsuccessful Bidders whom Pinal believes to have a reasonable chance of receiving the award if the successful Bidder fails to provide the necessary documentation to Pinal and enter into a contract with Pinal, may be retained by Pinal until the earlier of the day after the signing of the Contract instrument by the Pinal County Board of Supervisors or the sixty-first day after the bid opening, whereupon the Bid Security shall be returned to such Bidders.

The Bid Security of the three lowest Bidders may be retained until the Notice of Award has been issued and a contract has been finalized.

8.4 As a courtesy, Bid Security may be returned to noncompetitive Bidders not sooner than seven days after the bid opening. Compliance with the provisions herewith shall be determined in all cases by the Director of the Pinal County Public Works Department and said Director's determination shall be final.

9. Certification of Intentions Concerning Subcontracting.

9.1 Each Bidder shall fill out, sign, date and submit with its bid, the Certification of Intention Concerning Subcontracting form provided in the Invitation for bids packet. Bidder shall list the name and address of each subcontractor, supplier and/or sub-suppliers who shall render work or services or provide material, equipment or tools to the Bidder/Contractor and the portion of work or services to be performed and materials, equipment or tools to be supplied on this Project. Failure to list subcontractors, suppliers, sub-suppliers or manufacturers whose work, services, material, equipment or tools total more than fifteen percent (15%) of the Bid Price shall constitute a non-responsive bid and result in rejection.

9.2 No Bidder shall be required to employ any subcontractor, supplier, subsupplier or other person or organization against whom the Bidder has reasonable objection.

9.3 Prior to payment to Contractor of final retention of compensation and release of Labor and Material Bond (Payment Bond) by Pinal, Contractor shall fulfill the requirements set forth in the General Provisions in paragraph 30 entitled "Liens."

appropriately licensed in the State of Arizona for performing their share of the Scope of Work.

10. Noncollusion Affidavit. Each Bidder shall complete the Noncollusion Affidavit form provided in the Invitation for Bids packet. In front of a notary public, said form shall be executed by or on behalf of the person, firm association or corporation submitting the bid, certifying under penalty of perjury, that such person, firm, association or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion or otherwise taken action in restraint of free competitive bidding in connection with the submitted bid. Failure on the part of any Bidder to observe these provisions shall result in disqualification.
11. Pre-Opening Modification or Withdrawal of Bids. A bidder may modify or withdraw its bid at anytime prior to the closing date and time set for the receipt of bids. A bid may be withdrawn or modified by presenting a written withdrawal or written modification clearly identifying the Bidder and the Project Number at the location designated for receipt of bids in the Invitation to Bid. No telephone, telegraphic or facsimile transmission of modification or withdrawal shall be accepted.
12. Late Bids, Late Modifications, Late Withdrawals. Late bids, modifications and withdrawals shall not be considered. A bid, modification or withdrawal is late if it is received at the location designated in the Invitation for Bids for receipt of bids after the closing date and time set for receipt of bids.
13. Mistakes in Bids After Bid Opening. After bid opening, the Director of the Public Works Department may permit a bidder to withdraw a bid without penalty if:
  - 13.1 A mistake is clearly evident on the face of the bid but the intended correct bid is not similarly evident; or
  - 13.2 The bidder establishes by clear and convincing evidence that a mistake was made.
  - 13.3 Mistakes shall not be corrected after award of the contract.
14. Opening of Bids.
  - 14.1 Bids shall be opened, and unless obviously unresponsive, the Bidder's name and the corresponding bid amount shall be read aloud publicly. A synopsis of the bid results shall be made available within a reasonable time after the opening.
  - 14.2 Periods of time, stated as number of days, shall be calendar days, unless specifically stated otherwise.
15. Bids to Remain Irrevocable Subject to Acceptance. All bids shall remain irrevocable and subject to acceptance for sixty (60) days after the date of the bid opening.
16. Award of Contract. The Contract shall be awarded and Notice of Award issued to the lowest responsible, responsive Bidder complying with these instructions as of the date and time set for

opening of the bids, provided the bid is reasonable and acceptance is in the best interest of Pinal. The Board of Supervisors shall not sign a contract until the successful Bidder has furnished the necessary surety bonds and insurance documents as required in the Bid/Contract Documents in the manner and form required in said documents. Failure to provide the necessary surety bonds and insurance documents in the required manner and form, permits Pinal to award the contract to the next lowest responsible, responsive Bidder, subject to the same requirements, but does not obligate Pinal to make such an award. Neither the issuance of the Notice of Award nor any submission by the bidder in response thereto obligates Pinal to enter into a contract for the work.

17. Reservation of Rights by Pinal. As set forth in the Invitation for Bids.

# Contractor Performance Evaluation Definitions

## OVERVIEW

Contractor will be provided a copy of the Construction Performance Review Form during the preconstruction meeting for each project. It is the contractor's responsibility to read, become familiar with and understand the form and to ask questions should clarification be needed prior to start of work. Construction performance review of the contractor's performance will be evaluated during the course of the project by Pinal County's project team. The project team will consist of Project Inspector, Project Manager, and County Engineer. Contractor's performance evaluation will be based on the following review criteria: Project Schedule, Project Cost, and Contract Requirements. Each of these criteria has sub-criteria for which the contractor will be given points for how well he / she has met the sub-criteria defined below. Points assigned to each criteria are project specific and may be changed depending on the priority for a given project. Once an evaluation has been completed, a copy of the signed evaluation will be sent to the contractor. Scores in the "unsatisfactory" category may result in suspension.

## DEFINITIONS

### 1. PROJECT SCHEDULE

**Schedule and Progress Meetings** – Prior to starting work on the project, contractor shall submit a project schedule to the project manager for acceptance. The schedule shall identify milestones or items of work to be accomplished during the course of construction such as Roadway Excavation, Aggregate Base Course and Pavement installation. Contractor shall have periodic progress meetings during the course of construction at times agreed upon by the project inspector at which time the contractor shall provide an updated schedule for the project as required by the project inspector. The project manager may attend said progress meetings as required. If issues arise during construction they are to be addressed with the project team in a prompt manner as to avoid schedule delays and unnecessary cost to the project. Full points (10) will be awarded to the contractor for keeping the project schedule updated and holding meetings on time as requested by the project inspector. Two points (2) will be deducted for each occurrence the contractor does not provide an updated schedule and / or does not hold a meeting on time as requested.

**Time Extensions** – It is the contractor's responsibility to request time extensions if required that may cause the project schedule to go past the completion date established in the original contract. Contractor shall present the project manager with proper documentation including the number of calendar days requested, new completion date and reason for the extension. The project manager may or may not accept the extension depending on the reason for the request. Full points (10) will be awarded to the contractor for no time extensions requested or time extensions required due to no fault of the contractor (ie: rain delays, change in scope of work). Two points (2) will be deducted for each time extension encountered due to the contractor's inability to perform in an acceptable manner.

**Meeting Contract Completion Date** – Should the contractor accomplish all work for the project with the acceptance of the project inspector by the completion date established on the original contract or with acceptable time extensions as mentioned prior, he / she will have met the contract completion date. Full points (10) will be awarded to the contractor for meeting the contract completion date or with acceptable time extensions. Two points (2) will be deducted for each week beyond the contract completion date should the delay be attributed to the contractor's inability to perform in an acceptable manner. All changes to the original completion date require Pinal County Board of Supervisor approval.

## 2. PROJECT COST

**Cost Change Orders** – It is the contractor’s responsibility to request cost change orders if required that may cause the project cost to increase above the original amount bid prior to proceeding with the work. Contractor shall present the project manager with proper documentation including unit cost, quantity, extended cost and reason for the cost change order. The project manager may or may not accept the cost change order depending on the reason for the request. Full points (15) will be awarded to the contractor for having no change orders or for change orders that are due to no fault of the contractor (ie: rain delays, change in scope of work). Five points (5) will be deducted for each change order requested by the contractor if the change order is due to the contractor’s inability to perform in an acceptable manner. Cost change order requests that result in an adjusted contract amount that exceeds the amount on the project award letter will require Pinal Board of Supervisor approval.

**Meeting Project Cost at Completion** – Full points (20) will be awarded to the contractor for meeting project cost at completion or for meeting an adjusted contract cost that is due to no fault of the contractor (ie: rain delays, change in scope of work). Twenty points (20) will be deducted for not meeting Project Cost at Completion if the cost over-run is due to the contractor’s inability to perform in an acceptable manner.

## 3. CONTRACT REQUIREMENTS

**Plans and Specifications** – It is the contractor’s responsibility to accomplish all items of work in accordance with the Maricopa Association of Governments (MAG) specifications, as detailed on the project plans and described in the project specifications including all addendums issued for the project. Should the contractor request a clarification of the plans or specifications he/she shall document such in the form of a Request for Clarification. The project manager may respond to said request with clarification or may not and indicate plans and specifications are sufficient. Full points (15) will be given for compliance to listed requirements, deductions in this category will include any quality related issues from work performed in the field. Five points (5) will be deducted for each occurrence the contractor submits a request for clarification and the project manager indicates the plans and specifications are sufficient.

**Submittals** – Contractor shall submit information required by the contract at the appropriate time for review and acceptance by the project manager including but not limited to Quality Control test reports, Material Certifications, and Progress Pay Requests. Contractor shall submit Progress Pay Requests only after work is accepted by the project inspector. Submittals will be graded on accuracy and timeliness. Full points (5) given for less than three late submittals; for each late submittal past three, one point (1) will be deducted.

**Safety, Considerate and Courteous** – It is the contractor’s responsibility to ensure that personnel are properly trained for work performed in a safe manner and that equipment itself is safe to operate. Contractor and his / her personnel shall accomplish all work in a manner that is considerate and courteous to the project team and the public. Full points (10) will be given for having no safety events or public/project team complaints related to inconsiderate or uncourteous behavior. One point (1) will be deducted for each non-injury safety event or complaint. Five points will be deducted for each injury on the job.

**Communication and Responsiveness** – Should the contractor communicate through the proper channels of County Inspector first and then Project Manager and respond to County’s requests in a timely manner, he/she will have met the communication and responsiveness. Full points (5) will be awarded to the contractor for meeting the communication and responsiveness sub-criteria. One point (1) will be deducted for each time the contractor fails to communicate thru proper channels or does not respond in a timely manner. To be considered timely, the contractor shall respond to the County requestor within two days (2) from the request.

## **APPEAL PROCESS**

The Engineer shall have full power to reject or condemn all or part of the Work performed under the Contract Documents, which does not conform to the specifications, terms and conditions herein expressed. All Work shall be performed, including the furnishing of materials, strictly to and in conformity with the plans and specifications made part of the Contract Documents and according to the directions of the Engineer.

The Engineer's failure to discover or reject Work, including materials, not in accordance with the plans, specifications and contract documents during performance of the Work, shall not be considered an acceptance of the Work, or a waiver of defects. Neither the failure to properly perform inspections, tests or approvals required by the Contract Documents nor the activities or duties of the Engineer in the administration of the Contract Documents shall relieve Contractor from Contractor's obligation to perform the Work strictly to and in conformity with the plans, specifications, terms, provisions and conditions of the Contract Documents.

When any unit of government, political subdivision, utility or any railroad corporation is to

pay a portion of the cost of the Work covered by the Contract, its respective representatives shall have the right to inspect the Work. Such inspection shall in no sense make any unit of government, political subdivision or any railroad corporation a party to the Contract and shall in no way interfere with the rights of either party to the contract.

19. Removal of Unacceptable and Unauthorized Work. All work, including materials used, which does not conform to the requirements of the Contract Documents shall be considered unacceptable. Unacceptable and/or defective Work, including materials used, found to exist prior to the final acceptance of the Work, shall be removed immediately and replaced by acceptable Work, including materials.
