AREA 1

**\*Activity** – Project work such as: pre-construction/construction/new construction/reconstruction, drainage, dust palliative, and pavement preservation.

**Construction** – The building of roadway and/or related infrastructure improvements.

**Drainage** – The management of storm water to protect private and/or public infrastructure.

**Dust Palliative** – A surface treatment applied to unimproved roadways to control dust.

**New Construction** – The establishment of a roadway and/or related infrastructure improvements.

**Pavement Preservation** – A topical treatment that extends the service life of existing pavement surfaces.

**Pre-Construction** – The project work conducted prior to construction of roadway and/or related infrastructure improvements such as: planning, environmental, design, and right-of-way acquisition.

**Reconstruction** – The rebuilding of roadway and/or related infrastructure improvements. Elements of new construction may be incorporated into the project.

**Safety** – The project work that eliminates or reduces the severity of roadway hazards. Examples include intersection realignment, guardrails, improved signage and/or pavement markings, and traffic signals.

**\*Status** – The current state of the project such as: cancelled, closed, completed, pending, programmed, and underway

**Cancelled** – The project was terminated due to financial or other constraints such as unresolved right-of-way issues or changing priority.

**Closed** – The project was combined with another project (including allocated funding) to streamline activities or allocated funding for project was not used.

**Completed** – The project was successfully finished/constructed and closed out.

**Pending** – The project is about to start or awaiting the completion of another activity.

**Programmed** – The project was approved/authorized and scheduled for a future budget year.

**Underway** – The project is in progress.

**Unfunded** – Funding has not been identified/allocated.
