PROJECT TYPE IMPROVEMENT

Length in Miles 6
Activity New Construction
Status Request 11 01 13

Project Number

Funding Source Transportation Excise Tax
County Cost \$1,000,000
Non County Cost \$0
Total Cost \$1,000,000

Comments

Requestor: Marvin Mitchell
 Project Justification: Safe continuous travel during monsoon season (roads wash out). Reduced fire access time during emergencies include year around access even during monsoon. There have been many new houses built in the last 10 years which is why there is now a fire station, they just need better access.

Amber Sunrise Drive

Estancia Dr-Saguaro Vista Dr

Maintenance Area Arizona City **Project Manager** Angeline To

Status Request 12 27 13

Project Number

Funding Source Transportation Excise Tax
County Cost \$550,000
Non County Cost \$0
Total Cost \$550,000

Comments Requestor: Philip Finch
 Project Justification: Safer all. Weather travel. Reduce dust air pollution. Reduce fire and rescue and police response time.

Baseline Avenue

Mohican Rd-East 980 feet

Maintenance Area Apache Junction **Project Manager** Celeste Pemberton **E-mail** celeste.pemberton@pinalcountyyaz.gov **District** 5

PROJECT TYPE IMPROVEMENT

Length in Miles 0.19
Activity Construction
Status Request 09 03 14

Project Number

Funding Source Transportation Excise Tax
County Cost \$55,417
Non County Cost \$0
Total Cost \$55,417

Comments

Requestor: Jacob Albin
 Project Justification: This portion of Baseline Avenue a dirt road that is in terrible condition. Has major flooding on portions when rain occurs. Currently, listed as a private road with a road maintenance agreement, however, the residence in this area don't have equipment to maintain. There are very nice homes in this area and the poor road conditions and dirt road are deterrents for potential property buyers. Improving this basic infrastructure would greatly enhance the value of this area and would increase the desirability for new construction. Most of the roads in this area are paved or maintained by county, as taxpayers in pinal county, myself and my neighbors would like to enjoy the benefit of paved, maintained roads leading to our properties. Let me know what I can do to assist in this endeavor. Cordially, jacob albin

County Cost \$10,000
Non County Cost \$0
Total Cost \$10,000

Comments

Projects: Chuichu Road, Battaglia Drive, and Sunland Gin Road
 Activity: Study
 Status: Request was forwarded to Engineering Support 4/11/14
 Requestor: Deputy Miguel Ayala, Pinal County Sheriff's Office #1129
 Project Justification: I'm currently a seasoned deputy sheriff with Pinal County. Currently, my responsible patrol region is Arizona City and outlying areas. I was assigned this beat back in 2013 and been here since. In the past I've worked Stanfield, Maricopa, Casa Grande and may possibly be here until further notice. During my duties, I witnessed contractors working on the surface streets in Arizona City. I'm happy to see that our Public Works department is taking an initiative to better the local streets for our local citizens and our out of state visitors, not to mention the long awaited left turn lane at the post office. One area of concern I do want to mention to you is Battaglia, Chuichu and Sunland Gin roads. To be more precise these roadways are Battaglia Road between Chuichu and Del Rio Roads, Chuichu Road between Battaglia and Peters Road, and finally, Sunland Gin between Arica and Milligan Roads. These areas of roadways are in poor condition or are in need of preservation/maintenance or in need of widening and adding of a left turn lane and an emergency lane. A high safety concern and liability for any motorists driving on our roadways on a daily basis with or without passengers.

Biznaga Road

Florence-Kelvin Hwy-Linda Ln

Maintenance Area San Tan

Project Manager Celeste Pemberton

E-mail celeste.pemberton@pinalcountyz.gov

District 1

PROJECT TYPE IMPROVEMENT

Length in Miles 0.4
Activity New Construction
Status Request 09 23 14

Project Number

Funding Source Transportation Excise Tax
County Cost \$164,000
Non County Cost \$0
Total Cost \$164,000

Comments

Requester: Heidi Cole

Project Justification: Biznaga Road is currently impassable. Biznaga should be easily accessed from Florence Kelvin Highway. Lots 31 C and 31 D are essentially locked with no access because of the current state of Biznaga Rd. Biznaga road runs north and south along the east end of both these aforementioned lots and is the main route for access to these lots and many others. Biznaga road provides passage to all the lots that encroach along its west side and provides a key route to enter and exit properties located in and around north Hexcel Road, Linda Lane, and Elwood Lane in the event of flooding, which we've recently experienced. It appears that this road has been left to nature and it's become overgrown with plant life. The intersection at Florence Kelvin Highway has had a sand bank build up preventing any access at all to Biznaga Rd. Making this road serviceable is a key piece in helping this area grow, as it would allow lots to be sold and of course, give potential buyers the necessary access to these properties.

Cactus Wren Street

Mountain View Rd-Val Vista Rd

Maintenance Area Apache Junction **Project Manager** Celeste Pemberton **E-mail** celeste.pemberton@pinalcountyaz.gov **District** 5

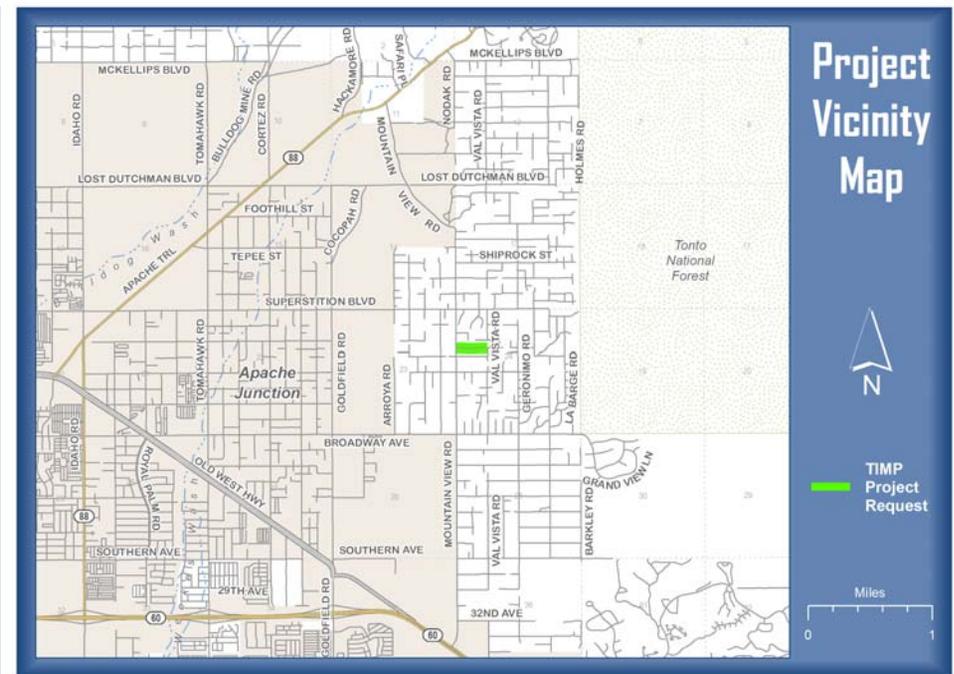

PROJECT TYPE IMPROVEMENT

Length in Miles 0.22

Project Number

Funding Source Transportation Excise Tax
County Cost \$150,000
Non County Cost \$0
Total Cost \$150,000

Comments

Requestor: Hans-Dieter and Margit Cloes

Project Justification: If the paving of the Florence-Kelvin Hwy in this area occurs as it currently exists there would be a resultant average loss of private property land to tracts 21, 22, and 24 of approximately 2.44 acres, 2.82 acres, 5.6 acres, respectively. These losses, however, may be more as they can only, at this point in time, be based on an assumption of the width and location of the proposed paving project (6511200-Design, 6511205-Right-of-Way Acquisition). A realignment of the existing dirt road to approximately 70-100 feet south and following a 50 foot section line easement at the south boundary of the parcels would mitigate the loss of land to the property owners by reducing it to as much as half that of the above mentioned average loss.

Reference letter to the Pinal County Transportation Advisory Committee dated 1/31/14.

Project Number

Funding Source Transportation Excise Tax
County Cost \$286,300
Non County Cost \$0
Total Cost \$286,300

Comments

Requestor: Rose Bennett and Eddie Villegas

Project Justification: There are two places on Hohokam Road that washout during monsoons and heavy rain events making it impossible to use the roadway unless you have a four-wheel drive vehicle. Hohokam Road serves at least 10 households and feeds to Quartzite Drive which serves even more households. Dust is a major issue during the dry season and the road is washboard a good portion of the time. It would save the county time and money in maintenance to surface this roadway. Thank you.

Comments

Requestor: Ashley and Israel Aranda

Project Justification: We have a very bad wash that comes from the mountain down this road when it rains. This has caused it to be very uneven and large holes and bumps in the road. This wash is dangerous for the 13 small children we have living on this road. Also cannot even have the children walk to the bus while this wash is coming down, more less drive in it. Our vehicles have got stuck multiple times in certain spots. We also have a lot of dust kick up when people are driving down the road. It would be really nice to see this rd. get paved for our children sake as well as our vehicles. Thank you for your time. Hopefully something good will come of this.

Requestor: Heather Cowart

Project Justification: The air quality is very poor, the dust is very severe to where you cannot even be outside due to the amount of traffic that is on this road. This road is highly traveled and when people are driving it causes a tremendous amount of dust and affects this whole area. In the past 6 months I have only seen 1 time a water truck and grader on this road. This truly needs to be addressed. Please consider this request so that the air quality will be better so that these residents are not eating dust while we are outside with our children enjoying family time. Thank you for your time and consideration.

Projects: Chuichu Road, Battaglia Drive, and Sunland Gin Road
 Status: Request was forwarded to Engineering Support 4/11/14
 Requestor: Deputy Miguel Ayala, Pinal County Sheriff's Office #1129
 Project Justification: I'm currently a seasoned deputy sheriff with Pinal County. Currently, my responsible patrol region is Arizona City and outlying areas. I was assigned this beat back in 2013 and been here since. In the past I've worked Stanfield, Maricopa, Casa Grande and may possibly be here until further notice. During my duties, I witnessed contractors working on the surface streets in Arizona City. I'm happy to see that our Public Works department is taking an initiative to better the local streets for our local citizens and our out of state visitors, not to mention the long awaited left turn lane at the post office. One area of concern I do want to mention to you is Battaglia, Chuichu and Sunland Gin roads. To be more precise these roadways are Battaglia Road between Chuichu and Del Rio Roads, Chuichu Road between Battaglia and Peters Road, and finally, Sunland Gin between Arica and Milligan Roads. These areas of roadways are in poor condition or are in need of preservation/maintenance or in need of widening and adding of a left turn lane and an emergency lane. A high safety concern and liability for any motorists driving on our roadways on a daily basis with or without passengers.

Project Number

Funding Source Transportation Excise Tax
County Cost \$240,000
Non County Cost \$0
Total Cost \$240,000

Comments

Requestor: Les and Laura Johnson
 Project Justification: We are requesting that Fulcar be paved. (Starting at Hidden Valley Rd to Allegro Rd - up to Table Top Rd would be even better - Due to the heavy trucks and equipment traveling up to SRP's ED3's & Tucson Electric's substation west. They stir up excessive dust - also the trucks and tractors (farming equipment) stir up excessive dust from traveling to and fro the fields on the north side of Fulcar. This has become unbearable. We are constantly breathing in continuous dust sometimes all night long. This dust has cargogens in it (nitrogen, pesticides, fertilizers). When the dust gets on your skin, it stings, burns, and itches. We can't even imagine what its doing to our lungs. We know that produce and future electric projects are important but we have always believed that human life should have first consideration. Although it will not solve all of the problems, it will help immensely, so please have mercy on us and do what is desperately needed to Fulcar - it really has become unbearable. We thank you!

Comments

Requestor: Steve Zobro

Project Justification: I am the owner of Hidden Valley Airport on Sage road. I submitted a form earlier for this road. We had a BOS meeting on September to approve the SUP for a skydiving company. At the hearing we're about 25 people who spoke to object and one of their concerns was the roads on McDavid with dust and noise. This did get approved to allow a skydiving company operate on my land. My question is this . I have suggested with 30K for the dust abatement of the road. When would this \$30K be due if we we're approved for this road?? . We are NOT on the road maintenance program but this ROAD should be . The new potential owner(Sky Diving company)went on record to say he would try to have the road worked on to keep the dust down.

I believe that if this road is approved with Public works that the BOS supervisors would approve this knowing the way the neighbors concerns we're. You can type in Steve Zobro City of Maricopa Board of supervisors hearing and you will see three

County Cost \$120,000
Non County Cost \$0
Total Cost \$120,000

Comments

Requestor: Lisa Gatlin

Project Justification: Thank you for taking the time to consider my request for the pavement project on Randolph Road. I made the decision to live outside of city limits 7 years ago, and what began as a small country back road, has since turned into a heavily traveled populated road, by many in the community as well as those in the surrounding area. Having said that, the dirt road has become more and more dangerous to travel on. The area that is not maintained by the county between Davis Farms and Riggs Farm, does have an easement. The maintained area (between Evans & Signal Peak) elevation level is dropping with each grading that is done. As we appreciate the grading, in order for our travels to be somewhat safer, the road decline is resulting in severe flooding when we receive any significant rainfall. Air quality is in jeopardy when it is dry, as we expect does happen in Arizona, yet if a solution is available it only makes sense to take the necessary efforts to rectify the problem. I believe if you paved Randolph Road it would not only benefit the community by making travels for us safer; you would also be saving money on the maintenance that is currently required.
