

**TRANSPORTATION PROJECT REQUESTS:  
OCTOBER 1, 2013 – SEPTEMBER 30, 2014**

Transportation Advisory Committee Meeting  
November 18, 2014

# Transportation Priorities

2

## Roadway Safety

- Maintain focus on roadway safety

## Traffic Flow

- Reduce congestion on the arterial transportation network

## Paved Mileage

- Increase paved mileage with a greater emphasis on regionally significant routes

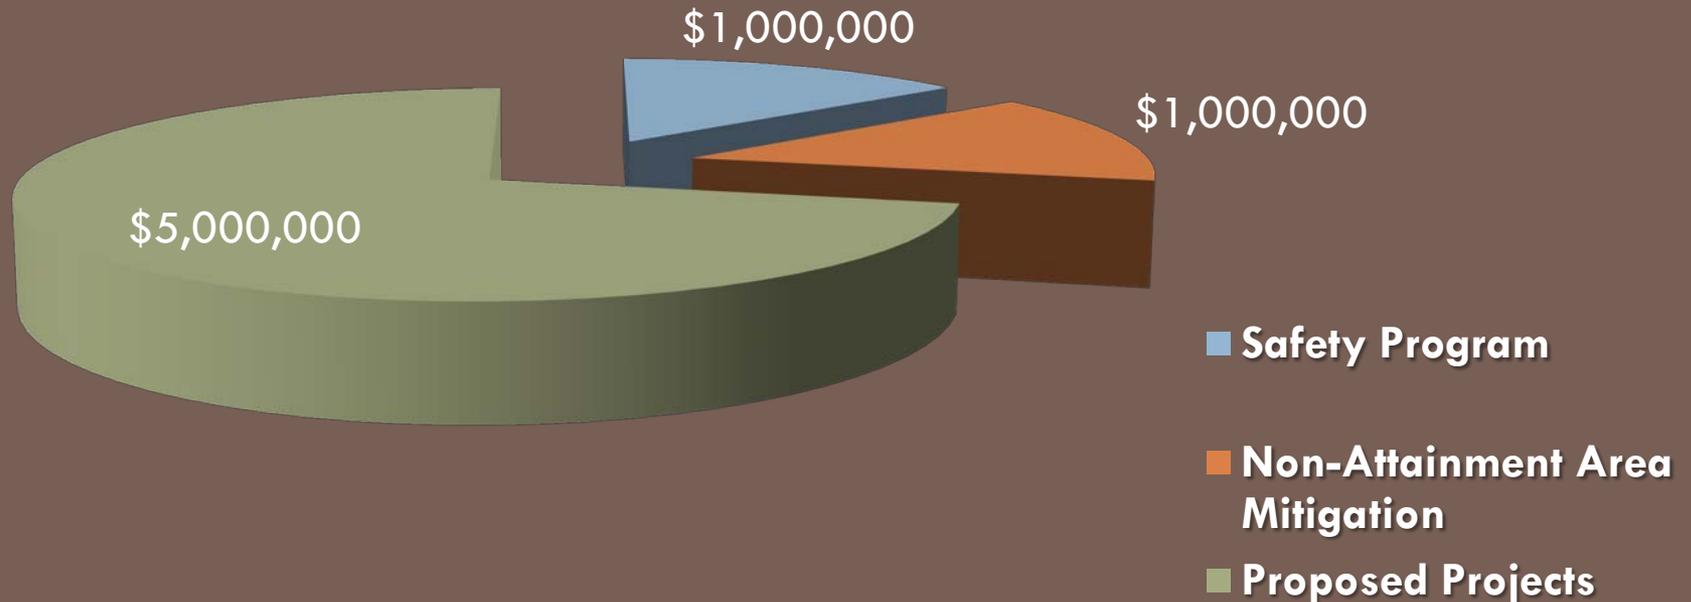

## *Economic Development*

- *Develop roadways that support economic development zones*

# Transportation Funding

3

## Budget Year 2018-2019

# Transportation Project Requests

4

The screenshot shows the Pinal County website interface. At the top, there is a navigation bar with links for County Home, Online Services, Visitors, Jobs, Government, and Economic Development. Below this is a banner image of a desert landscape with the Pinal County logo and the tagline "Wide open opportunity". A secondary navigation bar contains links for Public Works, Contact Information, and Documents & Information. A "Menu" section on the left lists various transportation-related topics, with "Transportation Improvement & Maintenance Program" selected. The main content area features a heading for "Make a County Roadway Request through the Transportation Improvement and Maintenance Program". Below the heading is a paragraph explaining the TIMP program. There are two columns of text with images: the left column describes the "Transportation Project Request" process, and the right column describes the "Transportation Advisory Committee".

### Make a County Roadway Request through the Transportation Improvement and Maintenance Program

The Transportation Improvement and Maintenance Program (TIMP) allows the public to have an opportunity to make a request to improve and maintain county roads. Your suggestions are welcomed and your request could be considered as a future transportation project. The TIMP is a Five-Year Pinal County Transportation Plan that identifies funding and establishes a schedule for planning, construction, and major maintenance projects.

**Transportation Project Request**

A request can easily be submitted online. Once a request is submitted it is forwarded to a Public Works area Engineer to determine eligibility for the Transportation Improvement and Maintenance Program (TIMP). The area engineer researches the average daily traffic, right-of-way, maintenance status, utility conflicts and drainage issues of the proposed project. If eligible, the proposed project is further evaluated by significant reduction in safety risk, reducing fugitive dust or aligning with the regional transportation plan. Eligible and evaluated projects are generally added to the fifth year of the transportation plan.

**Transportation Advisory Committee**

Once a transportation project request has been added to the proposed draft TIMP, it is handed over to the Transportation Advisory Committee (TAC) for prioritization. Public Works finalizes the proposed TIMP based on the prioritization and then submits the draft back to TAC for approval. TAC is a recommending body to the Pinal County Board of Supervisors on transportation planning, construction, and maintenance projects within the county's jurisdictional boundaries. The TAC annually reviews, updates, and recommends a fiscally constrained, Five-Year Transportation Plan.

# Request Evaluation Process

5

## Eligibility

- Average Daily Traffic
- Maintenance Status
- Right-of-Way
- Drainage
- Utility Conflicts

## Ranking

- Type
  - Improvement
  - Maintenance
- Number Value in 9 Different Categories
  - 0-3
- Project Score
  - 27 Highest Value

## Priority

- Area Engineers Ranking & Public Works Staff Recommendation
- Project Details
  - Pictures/Maps
- Public Comments

# Transportation Project Requests

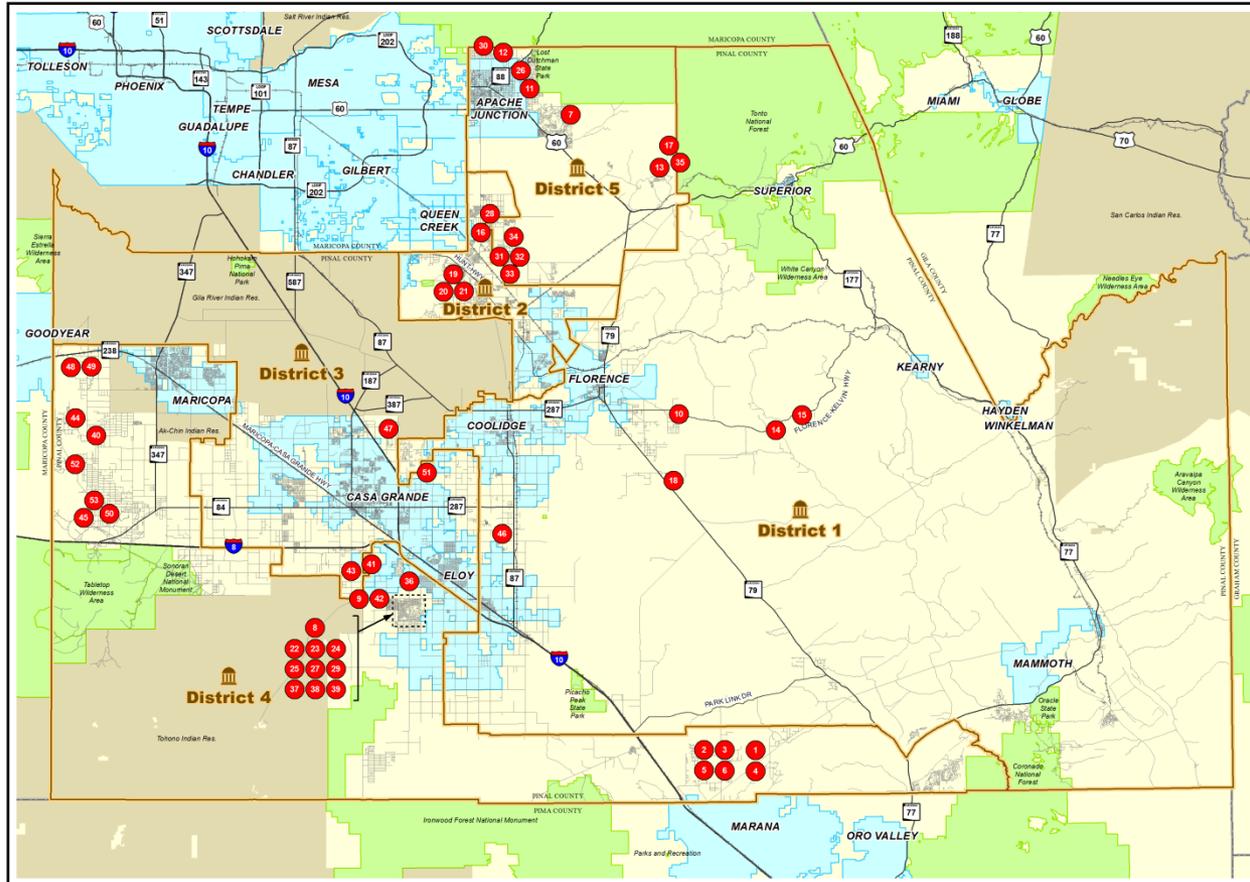

- **53 request records were submitted for evaluation by the Public Works Area Engineers and consideration by the Transportation Advisory Committee**
  - Several requestors submitted multiple, proposed projects
  - Several requests were duplications
  
- **40 proposed projects**
  - 28 improvement
  - 12 maintenance
  
- **20 recommended projects by Public Works staff**
  - 12 improvement
  - 8 maintenance

# Committee Homework

- Transportation Project Requests
  - ▣ Prioritize projects with 1 being the highest priority on the score sheet
- Project Amendments
  - ▣ Review and provide concurrence
- Return both score sheets to me by Friday, December 19, 2014

# Committee Homework (Continued)

- Public Works staff will prepare the proposed Transportation Improvement and Maintenance Program (TIMP) based on your (collective) priority
- Proposed TIMP including new projects and project amendments will be submitted to the committee for review/discussion/action in February
- Remember, the TIMP is a recommendation until Board approval

# Thank you & happy holidays
