

PINAL COUNTY
WIDE OPEN OPPORTUNITY

MEMORANDUM

DATE: APRIL 2, 2020
TO: Board of Supervisors
FROM: Louis Andersen, County Manager 
RE: Recognition of Emergency Management

Chairman and Board Members,
Below is a letter received on the excellent job done by our Emergency Management Center.

April 1, 2020

Good Afternoon,

It is with heartfelt thanks that I offer you this communication. Looking out the second story window, looking north, I see a work truck followed by a Sheriff Deputy. At first, I think the truck is being pulled over. Then I focused more closely on the load in the back of the truck. I see SNS supplies for GRIC. I can hardly contain the excitement. Even though OEM has been constantly purchasing PPE from vendors, the lag time is long. These supplies are timely. I know you have worked long, long hours and have spent countless hours figuring to make shipment deliveries like today possible. The system may not be perfect, but with your leadership and energy, SNS supplies are delivered. The end game here is first responders, health care workers and providers receive the necessary equipment that allows them to conduct their business with the proper protection.

At the end of the day, your efforts are felt and appreciated. Thank you does not seem enough. Thank you.

Respectfully,

Bruce Harvey
Public Health Emergency Preparedness Coordinator
Office of Emergency Management
Gila River Indian Community
